General information:

- You must be able to read and understand these instructions.
- The following instructions outline the installation process for attaching a mobility cart to the Volt 18 electric heater.
- Read all instructions thoroughly before beginning assembly and installation.
- Ensure the heater is cool or in a cold condition before installing the mobility cart kit.

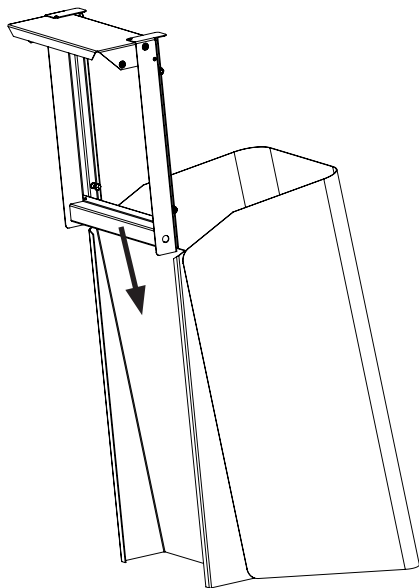

Preparation:

- Remove all components from box to ensure all necessary parts have been received.
- Unplug the heater from its electrical supply.
- Carefully tilt the heater on its front.

Installing Mobility Cart and Wheels to the Heater:

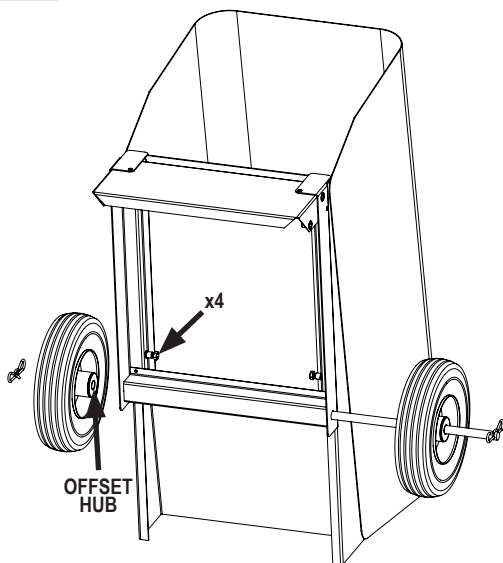

1. Slide the mobility cart onto the heater base flange as illustrated in Fig. 1.

FIG. 1

2. Secure the mobility cart to the heater base flange by tightening the four bolts shown in Fig. 2.

FIG. 2

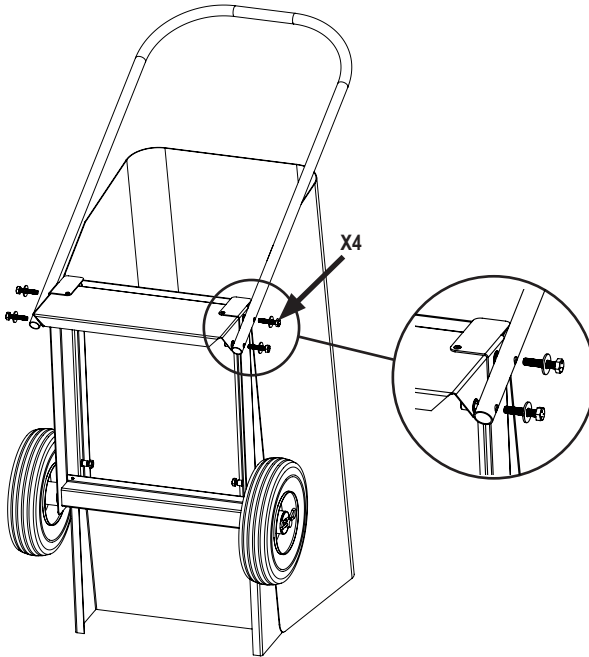

3. Insert the axle rod through the mobility cart's axle bracket and the wheel, as shown in Fig. 2.
Ensuring the offset hub of the wheel faces inward during installation.

4. Insert a cotter pin to secure the wheel from detaching.
5. Repeat the process for the opposite wheel, again ensuring the offset hub faces inward.

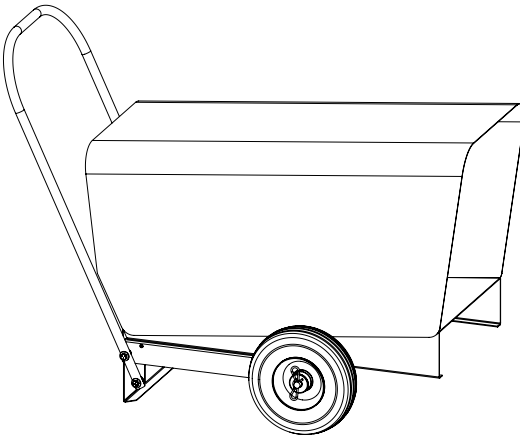

Installing the Handle:

1. Attach the 'U' handle to the mobility cart using the provided bolts and washers, as illustrated in Fig. 3.

FIG. 3

5. Tighten all bolts securely to complete the assembly.
6. Carefully tilt the heater back and test the mobility cart and handle for proper operation.
