3/8" Bolts	2
7/16" Nuts	2
J Bolts	4

Tools required:

- Ratchet
- 3/8" + 7/16" wrench or socket

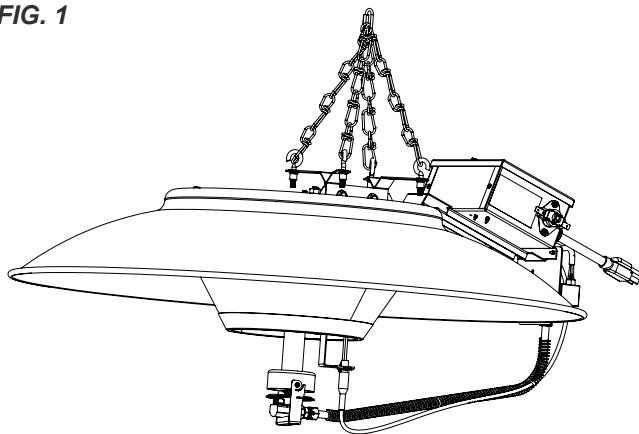

Qualifications for installation:

- You must read and understand these instructions before beginning the installation.
- You must have sufficient experience to install the kit and test for proper operation.

Preparation:

- Turn off the gas supply, remove from the electrical source, and let the heater cool completely.
- Remove the heater from the chain it is mounted to and place it on a table. Remove the Quick Link from the heater and set it to the side.

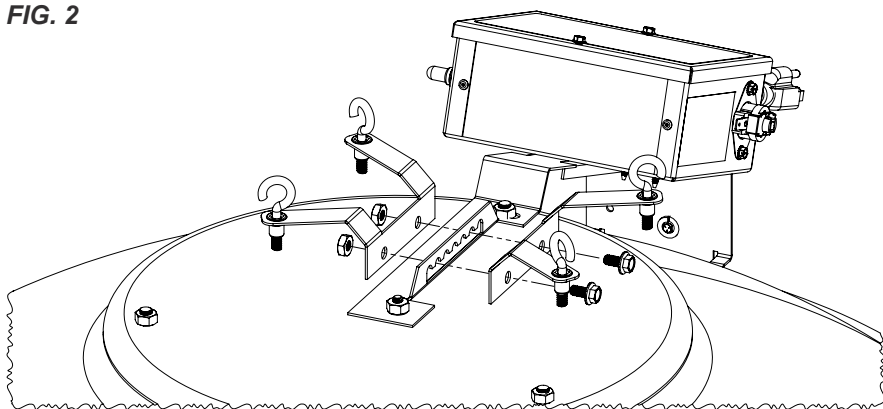

FIG. 1

Installation Instructions:

- Place each of the brackets included in this kit. One on each side of the original hanging location.
- Install the nuts and bolts provided in this kit. Making sure its centered, use a 7/16", and a 3/8" socket or wrench to tighten them.
- Install the J bolts into the rib nuts installed in the hanging brackets and bottom them out.
- Install the chains (not provided) to the mounting location inside the house.
- Place each chain on the j bolts and make sure the heater is level with the 1" tilt described in the owner's manual installation instructions.
- Hook up the gas hose. Turn the shut off valve open to the heater and make sure to check for leaks.
- Energize the heater and make sure the heater operates normally.
