

L.B. WHITE PREMIER® 350 DF

The *original* ductable tent heater

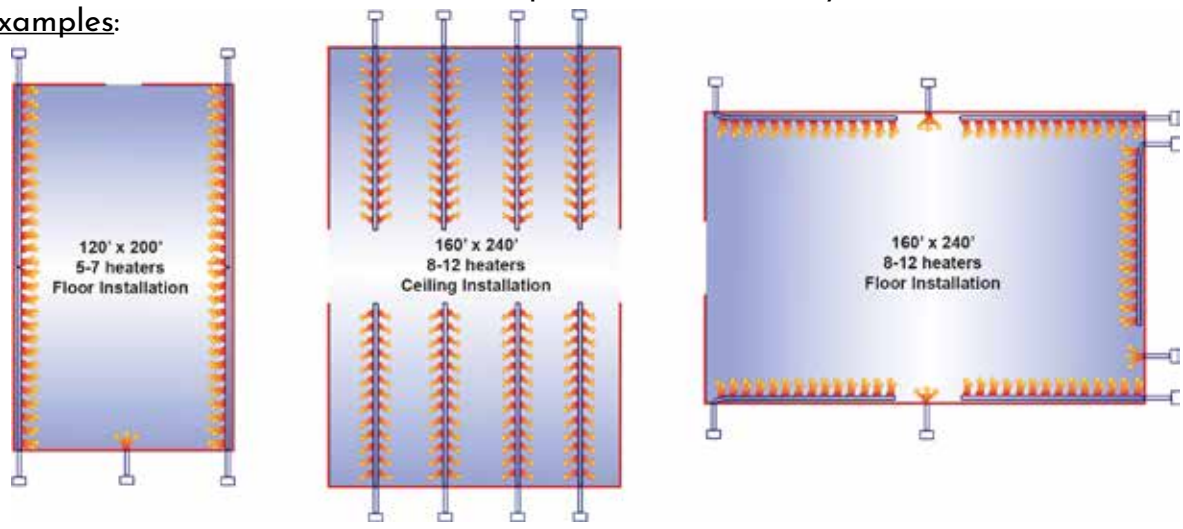

- Quietest event heater available
- 350,000 Btu/h
- Dual Fuel (LP Gas or Natural Gas)
- Automatic remote thermostat
- Dependable, easy start electronic ignition
- Versatile indoor or outdoor placement
- Attractive, durable white Tri-Shield finish
- Designed to move, with its lightweight design, easy-grip handles, and easy rolling wheels
- Hose, regulator, and thermostat included

Premier® 350 DF Heat Distribution Option:

For larger heat applications, the 100 foot perforated duct for the Premier 350 DF gives you an extremely efficient way to distribute heated air quickly and easily from overhead or from the ground up. The perforated duct is compatible with existing (non-perforated) L.B. White ducting. For ceiling suspension, a connection duct length of 20 feet is recommended between the Premier 350 DF heater and perforated duct. Modifying 100 foot perforated duct is not recommended as performance will vary.
